

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Preface.

In presenting the first Catalogue of the Alpha Tau Omega Fraternity the Committee would remind the Fraternity that the first edition must necessarily be incomplete. Catalogues are growths. They reach perfection slowly, and only after repeated publications.

In 1878, by direction of the High Council, a preliminary Catalogue was published in Richmond, Va. This was a most valuable beginning, but only a beginning. Nearly eighteen years elapsed, during which time every effort was made to perfect the Chapter record, and to obtain some information of every brother who had ever been initiated.

In August, 1896, the Worthy Grand Chief appointed a committee to collect all the additional data that had been secured by Chapters and the successive Worthy Grand Keeper of Annals, and to embody it in a second preliminary Catalogue. This committee did its work so speedily and thoroughly that in October of 1896 this preliminary Catalogue was sent to the Chapters and individuals for the purpose of obtaining further information and correction.

The responses were so prompt that the committee was able to present to the Fifteenth Bi-ennial Congress, which met in Cleveland, Ohio, December 30, 1896, a most satisfactory report and advised the immediate publication of a permanent Catalogue according to the specifications submitted with the report.

The Chapters have been arranged according to the issuance of their charters. It will be seen that sixty-nine charters have been granted and Chapters organized. Thirty-seven of this number were established in the decade from 1880-1890; fourteen during the last six years.

In addition to the above Chapters, there existed between the date of the Fraternity's foundation and 1875 eight Community Chapters.

PREFACE.

Since that time the Fraternity has thought it best to discontinue such Chapters. Of the sixty-four charters granted, sixteen have been withdrawn on account of the Anti-Fraternity Laws which at different times during the last twenty years have been inaugurated in different sections of the country.

In pursuance with the general demand of the Fraternity along the lines of conservatism, the Fourteenth and Fifteenth Congresses have withdrawn eight charters at the suggestion of the executive department. It will therefore be seen that these Chapters remain unaccounted for, but there is no doubt but that the charters were withdrawn on account of lack of material or apathy on the part of the Chapters themselves. At present the Fraternity numbers forty-two active Chapters and sixteen State Alumni Associations.

The Committee feels that it would not be inappropriate to include under a separate heading something of the history of Alpha Tau Omega, but it fully recognizes the limitations under which it must be restrained in this part of its task. It feels, however, justified in going as far in this connection as has been gone in some of the earlier volumes of the Fraternity's journal, *THE PALM*, to which it would acknowledge its indebtedness for much of this sketch.

BIRTHPLACE OF THE A. T. G. FRATERNITY, RICHMOND, VIRGINIA
RESIDENCE OF LARKIN W. GLAZEBROOK

Historical Sketch.

The Alpha Tau Omega Fraternity was founded in the city of Richmond, Va., on the 11th day of September, 1865, by the Rev. Otis Allan Glazebrook, D. D., Captain Alfred Marshall and Judge Erskine Mayo Ross, all three residents of that city.

The idea was undoubtedly conceived by the first named of the honored brothers, who prepared alone an outline of a constitution and secret work, and then invited his chosen friends to a conference at which he submitted it to them.

The memorable meeting was held in the rear parlor of the residence of Dr. Glazebrook's father, and the compact was then and there ratified and confirmed by the three. Ross had recently graduated from the Virginia Military Institute, at Lexington, Va., while Glazebrook and Marshall were at the time just entering the senior class of the same institution. The mother Chapter, therefore, was placed at the Virginia Military Institute, and from it the Fraternity has grown.

An intimate acquaintance with the working of the hearts and minds of these three young men at that time proves that the Alpha Tau Omega Fraternity had her origin, not in mere sentiment, or in the simple desire to be a Greek Letter Society. The motive which prompted her formation must be sought in something much more intense and lasting than a mere feeling and love for the mysteries. She was born in the midst of strife, at a time when men—men in the fullness of experience and knowledge of human nature, gained around the campfire and in battle—cared not be otherwise than earnest and serious; when the desire and yearning for association meant more than conviviality; when man felt the need of a brother man's love, confidence and aid; when it was realized that nothing was reliable or indestructible, save that which rested upon principle—not even friendship itself.

To bind men together in a brotherhood based on the eternal and immutable principles of *virtue, truth* and *love*, with a bond as strong as right itself and as lasting as humanity. Knowing no north, no south, no east, no west, but to know man as man, to teach that *true* men the world over should stand together and contend for the supremacy of good over evil; to teach not politics, but morals; to fasten not partisanship, but the recognition of true merit whenever found; to have no narrower limits within which to work together for the elevation of man, than the outline of a world—these were the thoughts and hopes uppermost in the minds of the founders of the Alpha Tau Omega Fraternity. Under such circumstances and with such incentives, the outcome could not have been other than the embodiment of what is truest, best and noblest in life.

It is not surprising, then, that whenever Alpha Tau Omega has been allowed to raise her voice or exert her influence, she has been a power in developing the highest type of manhood.

To the circumstances of her birth—circumstances which made her young founders wise, mature and serious beyond their years—is due the grand object she set forth in the beginning and the blessed principles she inculcates. Withholding none of the honor due to age, we find in these circumstances that which age may not give.

The Alpha Tau Omega Fraternity, though only thirty-one years old, has been from the first, matured in earnestness and in the strength of her convictions. She rests her claim, not upon her antiquity, but upon her worth; not upon her numbers, but upon the quality of her constituency; not upon her men, but upon the manhood of her sons. Manifesting these, she will not long appeal in vain where an exalted manhood is recognized as the only sure guarantee of an ennobling and undying friendship.
